Changes in Central and Eastern Europe

MAIN IDEA

CULTURAL INTERACTION
Changes in the Soviet Union led to changes throughout Central and Eastern Europe.

WHY IT MATTERS NOW

Many Eastern European nations that overthrew Communist governments are still struggling with reform.

TERMS & NAMES

SETTING THE STAGE The Soviet reforms of the late 1980s brought high hopes to the people of Central and Eastern Europe. For the first time in decades, they were free to make choices about the economic and political systems governing their lives. However, they soon discovered that increased freedom sometimes challenges the social order. Mikhail Gorbachev’s new thinking in the Soviet Union led him to urge Central and Eastern European leaders to open up their economic and political systems.

Poland and Hungary Reform

The aging Communist rulers of Europe resisted reform. However, powerful forces for democracy were building in their countries. In the past, the threat of Soviet intervention had kept such forces in check. Now, Gorbachev was saying that the Soviet Union would not oppose reform.

Poland and Hungary were among the first countries in Eastern Europe to embrace the spirit of change. In 1980, Polish workers at the Gdansk shipyard went on strike, demanding government recognition of their union, **Solidarity**. When millions of Poles supported the action, the government gave in to the union’s demands. Union leader **Lech Walesa** (lehk vah•WEHN•sah) became a national hero.

Solidarity Defeats Communists The next year, however, the Polish government banned Solidarity again and declared martial law. The Communist Party discovered that military rule could not revive Poland’s failing economy. In the 1980s, industrial production declined, while foreign debt rose to more than \$40 billion.

Public discontent deepened as the economic crisis worsened. In August 1988, defiant workers walked off their jobs. They demanded raises and the legalization of Solidarity. The military leader, General Jaruzelski (YAH•roo•ZEHL•skee), agreed to hold talks with Solidarity leaders. In April 1989, Jaruzelski legalized Solidarity and agreed to hold Poland’s first free election since the Communists took power.

In elections during 1989 and 1990, Polish voters voted against Communists and overwhelmingly chose Solidarity candidates. They elected Lech Walesa president.

Poland Votes Out Walesa After becoming president in 1990, Lech Walesa tried to revive Poland’s bankrupt economy. Like Boris Yeltsin, he adopted a strategy of shock therapy to move Poland toward a free-market economy. As in Russia, inflation and unemployment shot up. By the mid-1990s, the economy was improving.

Nevertheless, many Poles remained unhappy with the pace of economic progress. In the elections of 1995, they turned Walesa out of office in favor of a former Communist, Aleksander Kwasniewski (kfahs•N'YEHF•skee).

Poland Under Kwasniewski President Kwasniewski led Poland in its drive to become part of a broader European community. In 1999, Poland became a full member of NATO. As a NATO member, Poland provided strong support in the war against terrorism after the attack on the World Trade Center in New York on September 11, 2001.

In 2005 Lech Kaczynski of the conservative Law and Justice Party won the presidency. The following year Kaczynski's twin brother Jaroslaw became prime minister. The Kaczynskis have fought Poland's pervasive corruption, opposed rapid reforms of the free market, and supported the American-led campaign in Iraq.

Hungarian Communists Disband Inspired by the changes in Poland, Hungarian leaders launched a sweeping reform program. To stimulate economic growth, reformers encouraged private enterprise and allowed a small stock market to operate. A new constitution permitted a multiparty system with free elections.

The pace of change grew faster when radical reformers took over a Communist Party congress in October 1989. The radicals deposed the party's leaders and then dissolved the party itself. Here was another first: a European Communist Party had voted itself out of existence. A year later, in national elections, the nation's voters put a non-Communist government in power.

In 1994, a socialist party—largely made up of former Communists—won a majority of seats in Hungary's parliament. The socialist party and a democratic party formed a coalition, or alliance, to rule.

In parliamentary elections in 1998, a liberal party won the most seats in the National Assembly. In 1999, Hungary joined the North Atlantic Treaty Organization as a full member. In the year 2001, there was a general economic downturn in Hungary. This was due to weak exports, decline in foreign investment, and excessive spending on state pensions and increased minimum wages.

Germany Reunifies

While Poland and Hungary were moving toward reform, East Germany's 77-year-old party boss, Erich Honecker, dismissed reforms as unnecessary. Then, in 1989, Hungary allowed vacationing East German tourists to cross the border into Austria. From there they could travel to West Germany. Thousands of East Germans took this new escape route to the west. **A**

Fall of the Berlin Wall In response, the East German government closed its borders entirely. By October 1989, huge demonstrations had broken out

MAIN IDEA

Analyzing Causes

A How did the fall of communism in Hungary contribute to turmoil in East Germany?

in cities across East Germany. The protesters demanded the right to travel freely, and later added the demand for free elections. Honecker lost his authority with the party and resigned on October 18.

In June 1987, President Reagan had stood before the Berlin Wall and demanded: “Mr. Gorbachev, tear down this wall!” Two years later, the wall was indeed about to come down. The new East German leader, Egon Krenz, boldly gambled that he could restore stability by allowing people to leave East Germany. On November 9, 1989, he opened the Berlin Wall. The long-divided city of Berlin erupted in joyous celebration. Krenz’s dramatic gamble to save communism did not work. By the end of 1989, the East German Communist Party had ceased to exist.

Reunification With the fall of Communism in East Germany, many Germans began to speak of **reunification**—the merging of the two Germanys. However, the movement for reunification worried many people, who feared a united Germany.

The West German chancellor, Helmut Kohl, assured world leaders that Germans had learned from the past. They were now committed to democracy and human rights. Kohl’s assurances helped persuade other European nations to accept German reunification. Germany was officially reunited on October 3, 1990. **B**

Germany’s Challenges The newly united Germany faced serious problems. More than 40 years of Communist rule had left eastern Germany in ruins. Its railroads, highways, and telephone system had not been modernized since World War II. East German industries produced goods that could not compete in the global market.

Rebuilding eastern Germany’s bankrupt economy was going to be a difficult, costly process. To pay these costs, Kohl raised taxes. As taxpayers tightened their belts, workers in eastern Germany faced a second problem—unemployment. Inefficient factories closed, depriving millions of workers of their jobs.

MAIN IDEA

Clarifying

B Why would Europeans fear the reunification of Germany?

Economic Challenges In 1998, voters turned Kohl out of office and elected a new chancellor, Gerhard Schroeder, of the Socialist Democratic Party (SDP). Schroeder started out as a market reformer, but slow economic growth made the task of reform difficult. Although Germany had the world’s third largest economy, it had sunk to fifth by 2005. Germany’s unemployment rate was among the highest in Europe, and rising inflation was a problem. However, in 2006, a year after Angela Merkel of the Christian Democrats (CDU) was elected chancellor, unemployment fell below 4 million, and Germany’s budget deficit was kept to within EU limits.

Reunification has also forced Germany—as Central Europe’s largest country—to rethink its role in international affairs.

Democracy Spreads in Czechoslovakia

Changes in East Germany affected other European countries, including Czechoslovakia and Romania.

Czechoslovakia Reforms While huge crowds were demanding democracy in East Germany, neighboring Czechoslovakia remained quiet. A conservative government led by Milos Jakes resisted all change. In 1989, the police arrested several dissidents. Among these was the Czech playwright Václav Havel (VAH•tslahv HAH•vehl), a popular critic of the government.

On October 28, 1989, about 10,000 people gathered in Wenceslas Square in the center of Prague. They demanded democracy and freedom. Hundreds were arrested. Three weeks later, about 25,000 students inspired by the fall of the Berlin Wall gathered in Prague to demand reform. Following orders from the government, the police brutally attacked the demonstrators and injured hundreds.

The government crackdown angered the Czech people. Huge crowds gathered in Wenceslas Square. They demanded an end to Communist rule. On November 25, about 500,000 protesters crowded into downtown Prague. Within hours, Milos Jakes and his entire Politburo resigned. One month later, a new parliament elected Václav Havel president of Czechoslovakia.

Czechoslovakia Breaks Up In Czechoslovakia, reformers also launched an economic program based on “shock therapy.” The program caused a sharp rise in unemployment. It especially hurt Slovakia, the republic occupying the eastern third of Czechoslovakia.

Unable to agree on economic policy, the country’s two parts—Slovakia and the Czech Republic—drifted apart. In spite of President Václav Havel’s pleas for unity, a movement to split the nation gained support among the people. Havel resigned because of this. Czechoslovakia split into two countries on January 1, 1993.

Havel was elected president of the Czech Republic. He won reelection in 1998. Then, in 2003, Havel stepped down as president, in part because of ill health. The Czech parliament chose Václav Klaus, a right-wing economist and former prime minister, to succeed him. The economy of the Czech Republic has steadily improved in the face of some serious problems, aided by its becoming a full member of the European Union (EU) in 2004.

Slovakia, too, proceeded on a reformist, pro-Western path. It experienced one of the highest economic growth rates in the region in 2002. In 2004 it elected Ivan Gasparovic president and joined both NATO and the EU.

Overthrow in Romania

By late 1989, only Romania seemed unmoved by the calls for reform. Romania’s ruthless Communist dictator Nicolae Ceausescu (chow•SHES•koo) maintained a firm grip on power. His secret police enforced his orders brutally. Nevertheless, Romanians were aware of the reforms in other countries. They began a protest movement of their own.

A Popular Uprising In December, Ceausescu ordered the army to fire on demonstrators in the city of Timisoara

Social History

The Romanian Language

The Romanians are the only people in Eastern Europe whose ancestry and language go back to the ancient Romans. Romanian is the only Eastern European language that developed from Latin. For this reason, Romanian is very different from the other languages spoken in the region.

Today’s Romanians are descended from the Dacians (the original people in the region), the Romans, and tribes that arrived later, such as the Goths, Huns, and Slavs.

Romanian remains the official language today. Minority groups within Romania (such as Hungarians, Germans, Gypsies, Jews, Turks, and Ukrainians) sometimes speak their own ethnic languages among themselves. Nonetheless, almost all the people speak Romanian as well.

(tee•mee•SHWAH•rah). The army killed and wounded hundreds of people. The massacre in Timisoara ignited a popular uprising against Ceausescu. Within days, the army joined the people. Shocked by the collapse of his power, Ceausescu and his wife attempted to flee. They were captured, however, and then tried and executed on Christmas Day, 1989. Elections have been held regularly since then. In 2004 Traian Basescu was elected president. 🕒

The Romanian Economy Throughout the 1990s, Romania struggled with corruption and crime as it tried to salvage its economy. In 2001, overall production was still only 75 percent of what it had been in 1989, the year of Ceausescu's overthrow. In the first years of the 21st century, two-thirds of the economy was still state owned.

However, the government made economic reforms to introduce elements of capitalism. The government also began to reduce the layers of bureaucracy in order to encourage foreign investors. In 2007 Romania joined the European Union, as the Romanian government began to move away from a state controlled economy.

The Breakup of Yugoslavia

Ethnic conflict plagued Yugoslavia. This country, formed after World War I, had eight major ethnic groups—Serbs, Croats, Muslims, Slovenes, Macedonians, Albanians, Hungarians, and Montenegrins. Ethnic and religious differences dating back centuries caused these groups to view one another with suspicion. After World War II, Yugoslavia became a federation of six republics. Each republic had a mixed population.

A Bloody Breakup Josip Tito, who led Yugoslavia from 1945 to 1980, held the country together. After Tito's death, ethnic resentments boiled over. Serbian leader Slobodan Milosevic (mee•LOH•sheh•vihch) asserted leadership over Yugoslavia. Many Serbs opposed Milosevic and his policies and fled the country.

Two republics, Slovenia and Croatia, declared independence. In June 1991, the Serbian-led Yugoslav army invaded both republics. After months of bloody fighting,

both republics freed themselves from Serbian rule. Early in 1992, Bosnia-Herzegovina joined Slovenia and Croatia in declaring independence. (In April, Serbia and Montenegro formed a new Yugoslavia.) Bosnia's population included Muslims (44 percent), Serbs (31 percent), and Croats (17 percent). While Bosnia's Muslims and Croats backed independence, Bosnian Serbs strongly opposed it. Supported by Serbia, the Bosnian Serbs launched a war in March 1992.

During the war, Serbian military forces used violence and forced emigration against Bosnian Muslims living in Serb-held lands. Called **ethnic cleansing**, this policy was intended to

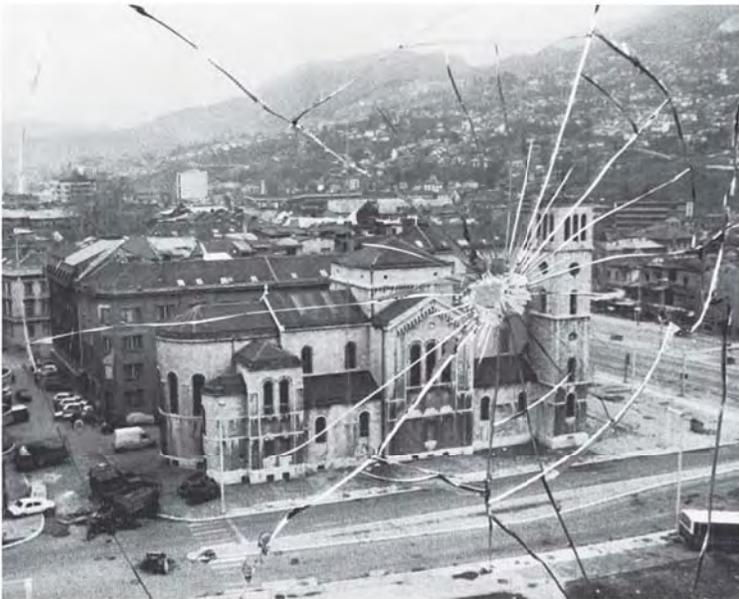

rid Bosnia of its Muslim population. By 1995, the Serbian military controlled 70 percent of Bosnia. In December of that year, leaders of the three factions involved in the war signed a UN- and U.S.-brokered peace treaty. In September 1996, Bosnians elected a three-person presidency, one leader from each ethnic group. By

Ethnic Groups in the Former Yugoslavia

Many ethnic and religious groups lived within Yugoslavia, which was a federation of six republics. The map shows how the ethnic groups were distributed. Some of those groups held ancient grudges against one another. The chart summarizes some of the cultural differences among the groups.

Differences Among the Ethnic Groups

Group	Language (slavic unless noted)	Religion
Albanians	Albanian (not Slavic)	mostly Muslim
Croats	dialect of Serbo-Croatian*	mostly Roman Catholic
Hungarians	Magyar (not Slavic)	many types of Christians
Macedonians	Macedonian	mostly Eastern Orthodox
Montenegrins	dialect of Serbo-Croatian*	mostly Eastern Orthodox
Muslims	dialect of Serbo-Croatian*	Muslim (converted under Ottoman rule)
Serbs	dialect of Serbo-Croatian*	mostly Eastern Orthodox
Slovenes	Slovenian	mostly Roman Catholic

* Since Yugoslavia broke apart, many residents of the former republics have started to refer to their dialects as separate languages: Croatian for Croats, Bosnian for Muslims, Serbian for Serbs and Montenegrins.

MAIN IDEA

Identifying Problems

D Why did Bosnia's mixed population cause a problem after Bosnia declared independence?

Rebellion in Kosovo The Balkan region descended into violence and bloodshed again in 1998, this time in Kosovo, a province in southern Serbia made up almost entirely of ethnic Albanians. As an independence movement in Kosovo grew increasingly violent, Serbian military forces invaded the province. In response to growing reports of atrocities—and the failure of diplomacy to bring peace—NATO began a bombing campaign against Yugoslavia in the spring of 1999. After enduring more than two months of sustained bombing, Yugoslav leaders finally withdrew their troops from Kosovo. In 2007, talks continued over the status of Kosovo.

The Region Faces Its Problems In the early years of the 21st century, there were conflicting signs in Yugoslavia. Slobodan Milosevic was extradited to stand trial for war crimes but died in 2006, while his trial was continuing. A large portion of the country's foreign debt was erased. Despite an independence movement in Kosovo, parliamentary elections under UN supervision took place in November 2001 without violence.

In Montenegro (which together with Serbia made up Yugoslavia), an independence referendum in May 2006 revealed that most voters wanted to separate from Serbia. As the Montenegrins declared independence in 2006, Serbia accepted the new situation peacefully. In 2007 Serbia held a parliamentary election in which the ultra-nationalist Radical Party made some gains, but could not win enough seats to form a new government.

The nations of Central and Eastern Europe made many gains in the early years of the 21st century. Even so, they continued to face serious obstacles to democracy. Resolving ethnic conflicts remained crucial, as did economic progress. If the nations of Central and Eastern Europe and the former Soviet Union can improve their standard of living, democracy may have a better chance to grow. Meanwhile, economic reforms in Communist China sparked demands for political reforms, as you will read in the next section.
